

In the Claims

Please amend the claims as follows:

Claims 1 - 30 (cancelled)

31.(new) A rack for a portable greenhouse having a tray comprising:
at least two bar rails of a length to be supported by opposite sides of the tray;
a plurality of connecting bars adapted to be removably connected to two of said bar rails;
said bar rails having lateral openings disposed therein, at regular intervals of a preselected distance x extending from one end of the bar rail to the other end of the bar rail;
said bar rails on one longitudinal surface thereof, have a recess disposed in the surface vertically above the opening;
said connecting bars having a length of x and a peg disposed on each end of the bar, said peg having a cross-sectional dimension so as to be tightly received in the opening;
said connecting bars have on each end thereof, disposed above the peg, a projection having a cross-sectional dimension so as to be closely received in said recess when said peg is received in the opening;
whereby the connecting bars may be removably connected to the bar rails at selected openings to form a rack suspendable by the sides of the tray.

32.(new) A rack for a portable greenhouse according to Claim 31 wherein said pegs have disposed on the exposed ends thereof, a detent cooperable with the bar rail at the opening whereby the connecting bar is retained in the opening in the bar rail.

33.(new) A rack for a portable greenhouse according to claim 31 wherein the bar rails have a first and a second vertical section and an elongated horizontal section connecting the lower ends of the vertical sections.

34.(new) A rack for a portable greenhouse according to claim 33 wherein the bar rails vertical
